

## DELIVERY PROGRAM 2025

Roof Drainage System

Roof System Accessories

Architectural Details and Flashings

Façade Systems

Perforated Profiles and Mesh

Sheets and Coils

Profiling Machines and Sheet Metal Tools

The prices do not include VAT or any customs duties

# THE MOST SUSTAINABLE CONSTRUCTION ZINC IN THE WORLD.

prePATINA

ECO ZINC

**prePATINA becomes prePATINA ECO ZINC  
with 50% less carbon.**

With prePATINA ECO ZINC, we are taking a big step forward on the path to decarbonisation. We are the first manufacturer of construction zinc to reduce carbon emissions by 50%. We make sustainability real: with real renewable energies – certified and without compensation.

EXTREMELY  
DURABLE

PRACTICALLY  
MAINTENANCE-  
FREE

100%  
RECYCLABLE

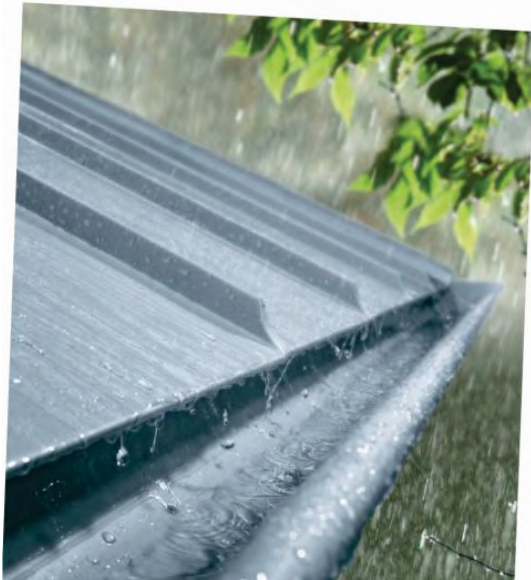

NATURALLY  
SUSTAINABLE

blue-grey

graphite-grey

## CONCRETE CARBON SAVINGS

prePATINA ECO ZINC

**12.0 kg carbon**

per m<sup>2</sup> of standing seam roof

**3.6 kg carbon**

per running metre of gutter

This delivery program is only commercial information and is an invitation to conclude a contract within the meaning of art. 71 of the Polish Civil Code and cannot be considered an offer within the meaning of art. 66 sec. 1 of the same Civil Code.

All sales are carried out by the network of commercial companies - RHEINZINK distributors.

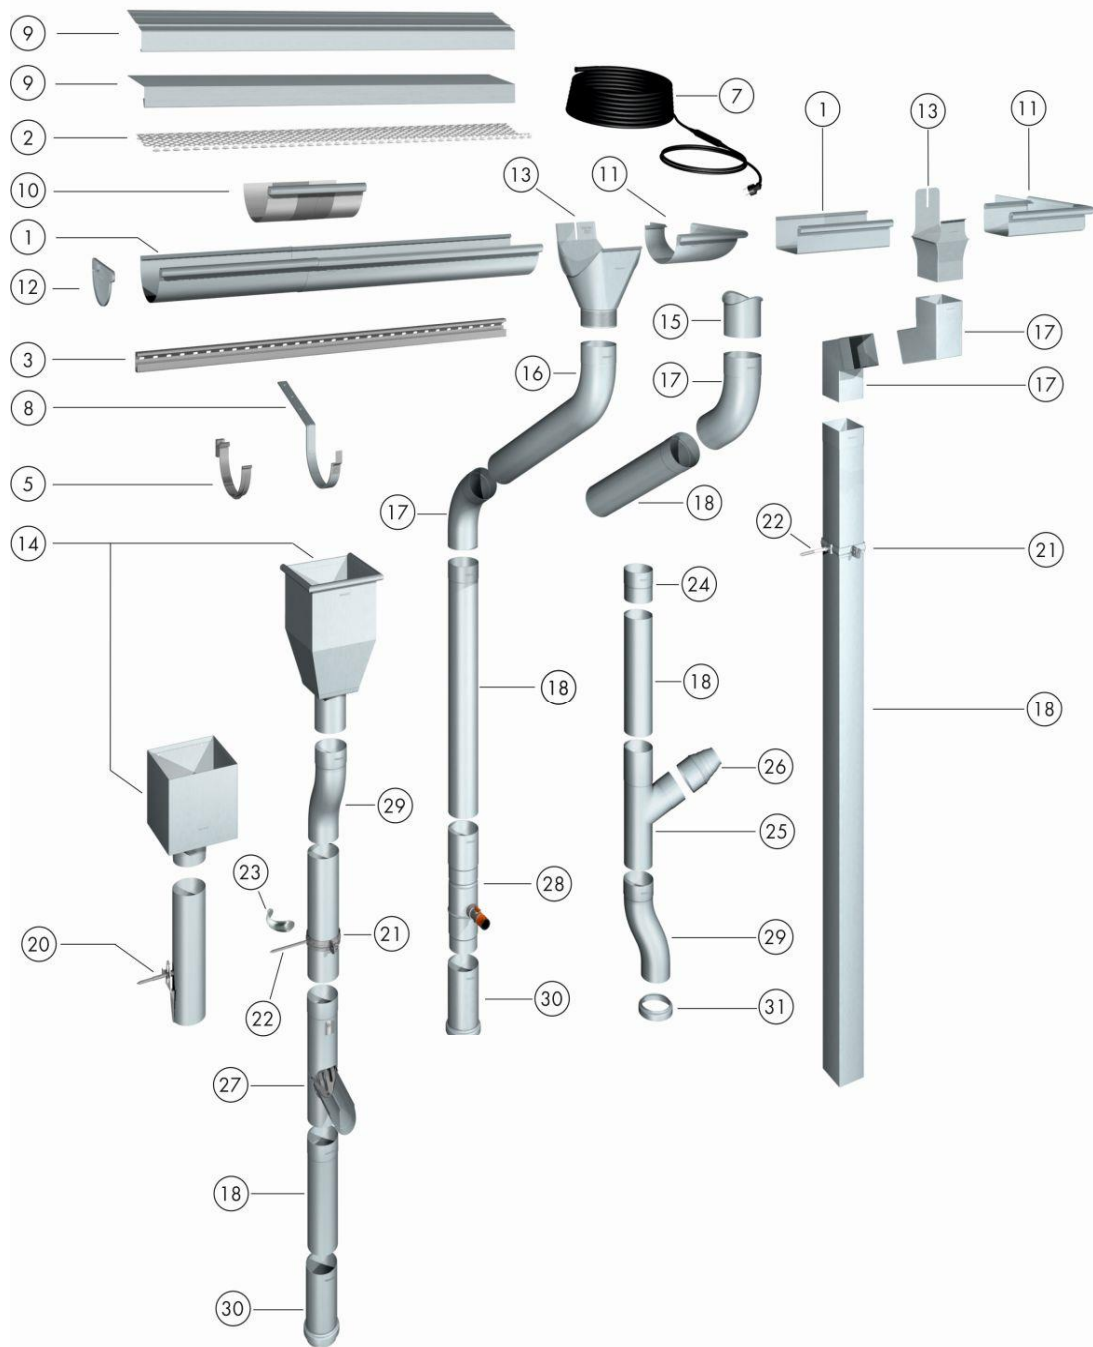

Version: 1/2025

Please ask your RHEINZINK distributors for the current version.

## ROOF DRAINAGE SYSTEM

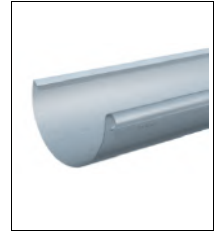

- NUMBER 1 FOR TILE ROOFS IN EUROPE
- METAL THICKNESS IN ACCORDANCE WITH PN-EN 612
- WIDE RANGE OF MATCHED ACCESSORIES
- SELF-RESTORING PATINATED SURFACE

PERFORATED PROFILES AND MESH

*Optical effects obtained by combining two types of patina, 5, 10 and 20 mm perforation and the combination of a perforated and a full sheet surface*

*Variation in the form of rectangular and square perforated coffers and square perforated coffers arranged in a pattern*

*A cut round structure - a combination of holes of different sizes*

*Structuring by any laser-cut forms - interesting effects obtained thanks to back lighting*

*The possibility of arranging the motifs regardless of the division of the facade*

**PERFORATED SHEETS (LATTICE)**

Available in sheet or panel shapes. Limit dimensions and thicknesses:
